Lighthouse

Interpol

This pace is set to break
It's just too safe for me outside tonight
And I want that
I face the storms at the time from the lighthouse
And I want that
And waste the storm and the night, oh
What do the waves have to say now?
What do the waves have to say now, now?
Slow down
And let the waves have their way now, now
Slow
And let the waves have their day
And I want that
Here I've been living and losing from sin
I pulled it out now, begin, begin
Here I've been losing and living within
Inwardly urgent and sinking again
The lighthouse
