

# Small Town Trap

## Eve 6

Suffocate from lack of stimulation  
Television time  
Gonna break with every bead of sweat  
My heart rate seems to climb  
My friend and I stick to the tired couches  
Please pass the time  
I found a dime under the corner cushion  
Wishin' it was some place else and so do I, so do I  
Small town trap with dreams of breakin' out  
Here I'm sitting back, my face is breakin' out  
Satan's in the living room, chokin' me with apathy  
Small town trap with dreams of breakin' out  
Inspire me 'cause if you don't  
I think I'll dissipate to dust  
The liar in me says  
Somethings gonna happen soon because it must  
My friend and I stick to the tired couches  
Please pass the time  
I found a dime under the corner cushion  
Wishing it was someplace else and so do I, so do I  
Small town trap with dreams of breakin' out  
Here I'm sitting back, my face is breakin' out  
Satan's in the living room, chokin' me with apathy  
Small town trap with dreams of breakin' out  
Community, immunity is the shot I crave  
A sleepless sleep, slow motion dreams  
Wanna dig my grave  
I'm gonna be like that  
Time ticks away  
On the longest day  
Wanna break away  
On the longest day  
Small town trap with dreams of breakin' out  
Here I'm sitting back, my face is breakin' out  
Satan's in the living room, chokin' me with apathy  
Small town trap with dreams of breakin' out  
Small town trap with dreams of breakin' out  
Here I'm sitting back, my face is breakin' out  
Satan's in the living room, chokin' me with apathy

Small town trap with dreams of breakin' out  
Small town trap with dreams of breakin' out
