

# Everything + Everywhere

## The Butchies

oh your face when you laugh  
all my worries fade  
you can grab me by my jeans  
pull and take what you want of me  
I'm not going anywhere but here  
can't shake off all your water  
like tides and howls and the moon  
you are mine  
I fell off your bed then jumped in  
I'm not going anywhere but here  
you are everything and everywhere
