

Joy

Ledisi

(Joy... Joy... La da da da... Joy... La da da da)

Can I be the one to bring you joy?
Let me be the one to bring you joy

Can we do this?
Make love by moonlight
Let me hold you,
Give you what you need

There ain't nothing I wouldn't do
To please you
My heart is open
Don't be afraid, come to me

Let me bring you joy

Can I be the one to bring you joy?
So much better if you let me love you
(I want to give you love)

Let me be the one to bring you joy
(Baby)
Ain't nobody gonna love you like I do

You won't believe all this love I have to give to you
Can't explain it
Baby you'll never have to worry about a thing
