Love Only Leaves You Lonely

Paloma Faith

They say it gets better
But it's bittersweet
You don't know how it feels
To sleep like we used to be
And your smell used to linger
I ain't need to wash my sheets
They're stained with memories
I wonder if you think of meForever really don't (don't)
Last too long
'Cause all I had to give (give)
For us has not been enoughOh love
Just left me lonely
I ain't got nobody to call my own!
Oh, love
Just made my heart ache
Our way is a mistake
Oh, love only leaves you lonelyI sleep with the TV on and write the saddest songs
Cigarettes and alcohol
Had become my only escape
I dream of my favorite child
No, I won't have to wait while
It hurts so much to smile
But even the strongest can breakForever really don't (don't)
Last too long
'Cause all I had to give (give)
For us has not been enoughOh love
Just left me lonely
I ain't got nobody to call my own!
Oh, love
Just made my heart ache
Our way is a mistake
Oh, love only leaves you lonelyI'm left with nothing but a twisted dream (but a twisted dream)
It must be someone out there who won't abandon me (abandon me)
'Cause I give so much, but all they ever do is takeOh love
Just left me lonely
I ain't got nobody to call my own!
Oh, love
Just made my heart ache
Our way is a mistake

Oh, love, oh love, only leaves you lonely, yeahOh yeah
Love just left me lonely
Love just left me lonely
To call my own!
Oh, love just made my heart ache
Our way is a mistake
Oh, love only leaves you lonely
