Sista Sista

Beverley Knight

Sittin' alone with a head full of empty thought
Playing with time that she just doesn't have
Dreamin' that life is a stranger that brings you flowers
Prayin' the dream is real as she feels it isDreams bring you anything
Hoping that chance could
Bring you to the other side
Wanting a future there

Feeling that love affair with the other sideSista sista, better run, better fly

Better weather on the other side

Sista sista, stand up tall, don't you ever fall
Sista sista, can't you hear my call?Over the bridge, turning right at the stop sign
Lives a woman who thinks as you do

Watchin' the world through the glare of a TV screen
Wonderin' what's 'round the corner for youI would give anything
Hoping that chance could bring me to the other side
Soon as my thoughts are clear

One day I'll see you there, on the other sideSista sista, better run, better fly

Better weather on the other side

Sista sista, stand up tall, don't you ever fall
Sista sista, can't you hear my call?Sista sista, better run, better fly
Better weather on the other side

Sista sista, stand up tall, don't you ever fall
Sista sista, can't you hear my call?Sista sista, better run, better fly
Better weather on the other side
Sista sista, stand up tall, don't you ever fall
Sista sista, can't you hear my call?
