

Sway Your Head

We Shot The Moon

Sway your head, move your feet, wake yourself from the sleep

If there's a day, there's a way you can get yourself there

Golden smile, you got style that they can't take away

Scream and shout, get it out before it swallows you

No surprise in these times how it really gets through

All the walks and the thoughts but can you break through?

You're alive, so alive

Now c'mon

You gotta pull yourself back together

Give it one more shot, it's now or never

With the new day calling for you

You gotta believe, woah

Build a plan, yes you can, you got nothing to lose

Look around, up and down, what are you gonna choose?

Can you see the sunrise that came up for you?

You're alive, so alive

Now c'mon

You gotta pull yourself back together

Give it one more shot, it's now or never

With the new day calling for you

You gotta believe, woah

You gotta pull yourself back in the water

Take in one deep breath, you're getting closer

After all you've talked and seen

You gotta believe, woah

I think it's coming back, I think it's coming back

I think it's coming back to me

I think it's coming back, I think it's coming back

I think it's coming back to me

Now I, I feel I'm getting better

Now I, my world is getting better

You gotta pull yourself back together

Give it one more shot, it's now or never

With the new day calling for you

You gotta believe, woah

You gotta pull yourself back in the water

Take in one deep breath, you're getting closer

After all you've talked and seen

You gotta believe, woah
