Learn To Love

NEEDTOBREATHE

I need the fear of a love thats lost
I need to stop trying to count the cost
I need to fight on the losing side
And always hold you
I will always stay with youTill we know the pain of a broken heart
We cant walk through the fires we didnt start
So, just hold on to the way it is tonight
Learn to love through the darkness and the light
Im on your side
Oh, Im on your sideI had the fortune of a second chance
I know the reason why we all should dance
I've seen the end and all you have to do
Is always hold true
I will always stay with youTill we know the pain of a broken heart
We wont walk through the fires we didnt start
So, just hold on to the way it is tonight
We can learn to love through the darkness and the light
We can learn to love through the darkness and the light
I'm on your side
I'm on your sideOh, I'm on your side
Hey, I'm on your sideAlways hold true
I will always stay with you
Yeah, you always hold true
I will always stay with youTill we know the broken heart
We cant walk through fires we didnt start
So, just hold on to the way it is tonight
And learn to love through the darkness and the light
Oh, learn to love
Yeah, we learn to love
Learn to love
Oh, learn to love
