Peru

Faraway George

My love never told you when,
never told you how.
My storms never let you down,
never held your ground.

I've never been to the moon,
I've never once seen Peru.
And I'll find you when God wants to
but I'll wait for you.

Maybe there is love,
where there's love there is hope.
Maybe there is love, there is love.
Maybe there is love,
where there's love there is hope.
Maybe there is love, there is love.

I've never been to the moon,
I've never once seen Peru.
And I'll find you when God wants to
but I'll wait for you, oh yes I would.

Maybe there is love,
where there's love there is hope.
Maybe there is love, there is love.
Maybe there is love,
where there's love there is hope.
There is hope.

And I'll find you when God wants to
but I'll wait for you.
