Future

Cirrus

Child take refuge in me
For I will not let you down
Brother, brother, brother
I will be your guide through the valley of darkness
There's no need to escalate
With my philosophy
You can do, you can be, you can see all
War is not the answer
I see tomorrow glistening in the sunshine
It's where I'm at
(Future) only love can conquer hate
(Future) praise the Lord

I've seen the future
