

# Don't Go Away

## Sweetbox

In darkness we are all the same  
See the light, stay  
Oh, please don't go away Beauty and the beast we thought  
Would never make it through  
Good and bad never stopped me from loving you  
Your inner beauty, oh, how it set me free  
The fear of loving only what outside we see But inside he hides all his passion might  
As he fights inner demons alone at night  
Tonight I search deep inside my soul  
I know what I feel for you, I can't let go  
So, please stay, and please know  
That my love is no joke, and I'm strong  
And I hope that some day we'll grow old  
Unfold the mould of life as we see it  
Because your love is needed Don't go away, you've got to stay  
Don't, don't go away  
Pick your head up, don't frown  
We can survive somehow  
Oh, please, don't go away Please don't go away, my love is here to stay  
No matter what they say, my love won't fade away  
Today, I sit and pray, is everything okay  
Day by day you take my heart away in pieces  
No reasons, 'cause I believe in us  
You're the one I trust, you gave me love  
And never took advantage of my heart  
I loved you from the start  
Please, don't break my heart just say you'll stay Don't go away, you've got to stay  
Don't, don't go away  
Pick your head up, don't frown  
We can survive somehow  
Oh, please, don't go away Don't go away  
Don't, don't go away  
Pick your head up, don't frown  
We can survive somehow  
Oh, please, don't go away, don't go away
