

# My Reason

## Maoli

Girl you've running through my head I'm feeling tired  
Tell me why I think of you every minute every hour  
Even when my mamma told me boys take it easy  
I told her mamma you don't know what she does to me  
She calls me funny  
I call her honey  
Baby we can do this all day  
Just come on closer  
Baby let me hold ya  
I just want this night with you  
We can just dance to the music  
Get a chance to bring you a little closer right into my arms  
Play your favourite songs that you love to sing along to  
And all your empty bottles just start falling on the floor  
Girl you make it easy  
To call you my reason  
Oh  
I never thought my life would be a bed of roses  
But now I've got you I know life is what you make it  
It might get harder when the seasons go through changes  
But I don't care because I got my special lady  
To call me funny  
To call me honey  
Baby we can do this all night  
Just come on closer  
Baby let me hold ya  
I just want this night with you  
We can just dance to the music  
Get a chance to bring you a little closer right into my arms  
Play your favourite songs that you love to sing along to  
And all your empty bottles just start falling on the floor  
Girl you make it easy  
To call you my reason  
Oh  
I ain't tryna love nobody but you, no  
Oh  
And if I had a million years  
This is just what I'd like to do  
I just like to dance

Let the music  
Get a chance  
To bring you a little closer right into my arms  
Play your favourite songs that you love to sing along to  
And all your empty bottles just start falling on the floor  
Girl you make it easy  
To call you my reason  
'Cos girl you make it easy  
To call you my reason  
Girl you make it easy  
Call you my reason
