

I Will Find You

Soley

No here you live above my mind, i wish you'd turned
My mind is trying to read yours, it ain't easy for a bird

Soon i'll meet you, i'll become the one you loveWe'll grow wings and we'll have claws, we're looking for
ourselves

The time is endless it could take foreverI will find you, I will find you , I will find you
I will find you, I will find you, I will find youI need a face to wear, a skin so soft to dress

Let me try you on, i'll do it gently
Don't be scared, don't fly away , our ??? is soon
Beware our heartbeats fight this life together
