# When This Feeling

## SWV

It starts with a thought of love and displace
I hold it with hope and inside me it stays
Then speak your reply but smile 'cause I know
Sometimes love shows in the phoniest ways(When this feeling comes over me, will you be there?)
To receive and let this love breathe
(When this feeling comes over me, will you be there?)
To receive and let this love breatheCuriosity, has it's part, is it just my body?
Or does it include my heart?
(We can't make moves until I'm sure)
I've tried, but it just makes me want you more(When this feeling comes over me, will you be there?)
To receive and let this love breathe
(When this feeling comes over me, will you be there?)
To receive and let this love breathePlease don't
(Please don't, don't go)
Feeling takes me over
(Love like a spell)That you've got me under
(And I know as time goes, ooh)
We'll grow closer, I thought
I could tell but still I wonder(When this feeling comes over me, will you be there?)
To receive and let this love breathe
(When this feeling comes over me, will you be there?)
To receive and let this love breathe(When this feeling comes over me, will you be there?)
To receive and let this love breathe
(When this feeling comes over me, will you be there?)
To receive and let this love breathe(When this feeling comes over me, will you be there?)
To receive and let this love breathe
(When this feeling comes over me, will you be there?)
To receive and let this love breathe
