Only For Me

Liz Anderson

Down the end of this barroom,
Out of sight of the light in the window
His mind in his whiskey
And his body in a folding chair
Far beyond repair
I enter his vision
He watches me look for my seat
He makes his decision
And he stands to his feet
Lord, it's a long way down
It happened to me
Wonderful sight
Only for me
Only for you
It happened to be a light shining through
Form one who was lost and found
Just like me and you
Old man says, "young man, my you're looking
Pretty green
Like a stranger to this kind of place
Come sit at my table
Come and look into my face
I've got a story to tell."

"there was a father and son
But that was a long time ago
And when the time came to run
I just couldn't say no
So I left them behind."
It happened to me
Wonderful sight
Only for me
Only for you
It happened to be a light shining through
Form one who was lost and found
Just like me and you
We have seen it before
In times of great sorrow
That human compassion will flow from a well

That has long run dry
It happened to me
Wonderful sight
Only for me
Only for you
It happened to be a light shining through
Form one who was lost and found
Just like me and you
