

Body and Soul

[Tori Amos](#)

Sweet communion
Sweet communion
Sweet communion I have waited all my life
You say you are bonafide to be my judge
Lay your law down on me love Seven devils bring them on
I have left my weapons
'Cause I think you're wrong
These devils of yours, they need love Come and kneel with me body and soul
Come and kneel with me body and soul
Come and kneel with me body and soul
Body and soul, body and soul Sweet communion
Sweet communion In my temple boy be warned
Violence doesn't have a home now but ecstasy
That's as pure as a woman's gold Seven devils bring them on
I have left my weapons
'Cause I think you're wrong
These devils of yours, they need love Come and kneel with me body and soul
Come and kneel with me body and soul
Come and kneel with me body and soul
Body and soul, body and soul I'll save you from that Sunday sermon
Boy I think you need a conversion
Body and soul, body and soul Come and kneel with me body and soul
Come and kneel with me body and soul
Come and kneel with me body and soul
Body and soul, body and soul
