The Future

Austra

To the end I'll never know,
temperatures are rising slow.I came so hard, in your mouth.
I saw the future, it was dark.
I know I'm not afraid
I'm consumed.
and another thing,
I'm still bruised.So it seems you're not my friend,
anything is better than.I came so hard, in your mouth
I saw the future, it was dark.
I know I'm not afraid
I'm consumed.
and another thing,
I'm still bruised.Nobody knows what I bring.
