

# When You Were My Baby

**Relient K**

We walked alone in the rain and lightning  
When you were my baby  
So much in love it was almost frightening  
When you were my baby  
Everybody called you a fool  
When you wouldn't play by the rules  
Everybody was wrong. Oahu.  
There was nowhere to run away to  
When you were my baby  
Everybody began to hate you  
When you were my baby  
Time wasn't on our side  
Me and my foolish pride  
Then I said goodbye. Oahu.

Now you've gone away and left me on my own  
Now I'm walking down the highway all alone  
On a rainy night and crying out my eyes  
We were young, yeah, but old enough to...  
When you were my baby  
And I just couldn't help but love you  
When you were my baby  
Just the way you wore your hair  
And the way you just didn't care  
And the way you danced do do do, etc.  
When you were my baby
