Frog

Brunatex

Hopping through the rain forest
Escaping the fire like all the rest
Trying to keep my species alive
Looking for lilies and tasty fliesMy legs are pumping as fast as they need to
My legs are drying as quick as glue
I look at the sun for one of my kind
I am a frog and I have a mindYou sold me out, you sold me out
Yeah, I was a frog and now I am a songLess and less of us everyday
The humans have screwed us the human way
Trees are falling without a sound
Into a river where they drownYou sold me out, you sold me out
Yeah, I was a frog and now I am a songAnd I'm running just to be
Yeah, I'm hoping you'll kiss me
I used to be aliveLess and less of us everyday
The humans screwed the human way
Trees are falling without a sound
Into a river where they drownYou sold me out, you sold me out
Yeah, I was a frog and now I am a song
