Animal Sounds

Grand National

Pick out a few
get something easy
gotta lot of excuses
just to keep yourself hereWithout a clue
taking a number
cause you're just feeling younger
at the end of this dayOversee you
under a ceiling
that you don't quite believe in
but are willing to tryAfter we do
listen much closer
so the game makes you wonder
where it's taking us nextSometimes you love
where you go
but you never
really do know
of the ways
to go down
under a world full of animal soundsLooking through glass
waking the neighbors
cause you want them to save us
from keeping you hereMaking it stop
under a ceiling
that you don't quite believe in
but are willing to try
