

# Got Me Thinking (feat. Veela)

**Maduk**

Yeah let me rise Say, I'll tell you I'm sorry And don't think I'm wise Because of you Because you've You got me thinking Ooh nah nah Don't make me listen Ooh nah nah Give me permission Ooh nah nah Get in the system with me Ooh nah nah This is a prison Check yourself, I'm all right You got me thinking Did you see the warning lights? Ooh you got me thinking You messed up, I was right Got me thinking Doctor, doctor, not so bright Every single thing you wanted Now I got it Everything we built together Now I want it Running a-away ain't gonna solve it You weren't prepared to begin or to pause it Something that would make you mad, oh I love it Go on, just tell me I'm bad, oh, you called it Someone you could never trust you're so on it Now I'm done with kissing up, so you're walking (Got me thinking) Check yourself, I'm all right You got me thinking Did you see the warning lights? Ooh you got me thinking You messed up, I was right Got me thinking Doctor, doctor, not so bright Every single thing you wanted Now I got it Everything we built together Now I want it Running a-away ain't gonna solve it You weren't prepared to begin or to pause it Something that would make you mad, oh I love it Go on, just tell me I'm bad, oh, you called it Someone you could never trust you're so on it Now I'm done with kissing up, so you're walking There are people in there And don't think I'm letting them burn The facility is our responsibility And don't it hurt you To up and leave
