

Angel of Broken Hearts

[Jason Michael Carroll](#)

How do I move on from here
When everything I lost is what I want
This ocean left inside of me
Has become her memory's favorite place to haunt
How can the best I ever had
Hurt so bad, hurt so long
You know I'm not that strong
Angel of broken hearts
Where on earth are you tonight?
Help me find a place to start
To get me over her
Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away
Some days I think that I've come through
The worst of it and I'm on the healing side
And then she kicks up like a dust bowl wind
And covers up my mind
I lose hours, I lose days
In the haze of used to be
And then I'm on my knees
Angel of broken hearts
Where on earth are you tonight?
Help me find a place to start
To get me over her
Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away
I've paid with prayers, I've paid with tears
But I'll probably pay for years
I could use a little mercy here
Angel of broken hearts
Where on earth are you tonight?
Help me find a place to start
To get me over her
Maybe I mistreated love
Have I not suffered long enough?
Angel of broken hearts
Take this pain away, take this pain away
Oh, angel
Come and take this pain
