

# Hang With the Devil

Wilson

Never a way to shake it shake it off  
Feed it to me Ill take it take it all  
The more that you give the more that I take.  
The faster you go the more that Hell breaks  
You know I'm on my way to hang with the devil  
Can't get away from the way you tempt me  
Hang with the devil, won't be satisfied until it kills me  
Show me your teeth and sink em sink em in  
Biting the hand that leads them lead me in  
With one foot in the grave, you're gonna leave me where I'll lay  
You know I'm on my way to hang with the devil  
Can't get away from the way you tempt me  
Hang with the devil, won't be satisfied until it kills me  
On my way back down  
No there's no way out.  
The more you give it, the more I take it  
On my way back down  
One foot in the grave  
You know I'm on my way to hang with the devil  
Can't get away from the way you tempt me  
Hang with the devil, won't be satisfied until it kills me
