Fire Up

Gravity Co.

Turn off the lights goddess
Tonight Im your highness
Prove youre worth my attentionTurn off the lights goddess
No need to be modest
Take over my imaginationGive me something new
Ready for youTurn on the lights vixen
Lets see your trick mixing
Pack it up for my collectionTurn on the lights vixen
Im craving your fix so
Shut up and let our wet dreams rule this gameFire up the flamesGive me something new
And it better be good now
Give me something new
Im ready for youGive me something new
And it better be good now
Give it good
Ready for youDo your worst
Do your worst
