

The Right Life (Trent Cantrelle Radio Remix)

Seal

Caught up in my life
Waiting to be set free
Waiting to find my answer Come if it feels right
Now is the time to breathe
No need to find forgiveness Cause any lonesome child wants to make love
Fantasize about some vision
Funny how the lost guy makes the deal ("the deal" [x6]) Just when you thought you were lonely
They put you under the right spell
Wake up tomorrow, you're gonna be livin' the right life
Ooo, livin' it Living in the streets
Tyna find a better way
Elevator take me higher There's a place for me
All I want is to use the day
Elevator take me higher
Take me higher, take me higher
Take me higher Just when you thought you were lonely
They put you under the right spell
Wake up tomorrow, you're gonna be livin' the right life Just when you thought you were lonely
They put you under the right spell
Wake up tomorrow, you're gonna be livin' the right life
Ooo livin' 'it, ooo livin' it Just when you thought you were lonely
They came along with the right spell
Wake up tomorrow, you're gonna be livin' the right life
Livin' the right life, livin' the right life, livin' the right life Cause any lonesome child wants to make love
Fantasize about some vision
Funny how the lost guy makes the deal ("the deal" [x6]) Just when you thought that you were lonely
They put you under the right spell
Wake up tomorrow, you're gonna be livin' the right life Just when you thought that you were lonely
They put you under the right spell
Wake up tomorrow, you're gonna be livin' the right life
