

Eileen

Skid Row

There are things we cannot see that hang
Within her sight
There are people we won't remember that
Dance with her at night Eileen's calling me
To sit awhile and talk to trees
Eileen can't you see
The songs you sing are scaring me Eileen, Eileen She's romancing with the moon
Full and alone
It's really a street light
It's something we all know Eileen's calling me
To sit awhile and talk to trees
Eileen can't you see
The songs you sing are scaring me Eileen, Eileen, Eileen There are things we cannot see that hang
Within her sight
It's really a street light
It's something in her night Eileen she's calling me
To sit awhile and talk to trees
Eileen can't you see
The songs you sing are scaring me Eileen's calling me
To sit awhile and talk to trees
Eileen, oh can't you see
The songs you sing are scaring me Eileen, Eileen I, I know what she knows
I know what she knows
I know what she knows
I know what she knows
