

Glitter In The Gutter - Radio Edit

A Hori Buzz

Pattern satin rolling itâ€™s way round
Full moon sand dune blazing up and down
Distant longing falling at your feet
Rain drops sidewalk eating up the heat

I got a lot of sunlight on me
Flying kind of high like a bumble bee
Feels so good Knew it would
Man Iâ€™m loving this synergy
Take a short walk on the freeway
Change those lanes from day to day
Times so right itâ€™s your night
There ainâ€™t nothing you can say to me

Blue bottle tops the locks
The seeds the dreams of a whisper
Position lamps forty cent stamps
The gutters filled with glitter
Dancers meander to and fro
Among the lights that shine
Calendars greeting out of date
A wearied troubled mind

Got a lot of sunlight on me
Flying kind of high like a bumble bee
I feel so good knew I would
Man Iâ€™m loving this synergy
Take a short walk on the freeway
Change those lanes from day to day
Times so right itâ€™s your night
There ainâ€™t nothing you can say to me
I got a lot of sunlight on me
Flying kind of high like a bumble bee
I feel so good I knew I would
Man Iâ€™m loving this synergy
Take a short walk on the freeway
Change those lanes from day to day
Timeâ€™s a so right itâ€™s your life

There ain't nothing you can say to me

Ooh oooh feel it
Ooh oooh feel it
Oooh ooh feel it
Got a lot of sunlight on me
Flying kind of high like a bumble bee
Feels so good knew I would
Man I'm loving this synergy
Take a short walk on the freeway
Change those lanes from day to day
Time's so right it's your night
There ain't nothing you can say to me
