Anymore

Antifreeze

You made me give up on you.
It's hard to say but it's true.
It's how I feel because
I dont know you anymore.I think of what you've become,
and all the things that you've done.
I close my eyes because
I dont know you.Well it's all I can say,
I'm redundant today,
but it's all I can do anymore.
My feelings are numb.
It's over, it's done.
Forevermore.I listen to lies that you say,
you're giving me new ones each day.
But now that's over 'cause
I dont trust you anymore.Excuses stacked to the sky,
I let you pile them so high.
Now I know better 'cause
I dont trust you anymore.You can't manipulate me.
Nothing you say I'll believe.
I see right through you and
I won't take that anymore.I go through times in my head,
where I've been thrown and mislead,
Never again because
I won't take that.Well it's all I can say,
I'm redundant today,
but it's all I can do anymore.
My feelings are numb.
It's over, it's done.
Forevermore.Go away.
It's over with you and every day
I go more insane
just living with you.Hey, there's the door,
You know what it's for.
Dont trouble me anymore.Well it's all I can say,
I'm redundant today,
but it's all I can do anymore.
My feelings are numb.
It's over, it's done.
Forevermore.Go away.

It's over with you and every day
I go more insane
just living with you.Hey, there's the doorSo just go away.
It's over with you and every day
I go more insane
just living with you.Hey, there's the door,
You know what it's for.
Dont trouble me anymore.
