Masquerade

Backstreet Boys

Backstreet
Listen up
This seems so hypnotic, smoke and mirrors, lights and magic
Paper faces in gold
There's soldier boys, beauty queens, everyone's a mystery
It's got me losing control
Yearning, I'm yearning for the one to steal my eyes
Wanna play in this game of disguise
It's a masquerade, a love parade
So won't you stay and dance with me?
All through the night and day
My masquerade, I need you, baby
So stay with me tonight
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
Just like a perfect dream I don't ever wanna leave
A thousand freaks in the show
One's a tiger, one's a lynx, one's a king that suffering
Rolling high, moving low
Burning, I'm burning, can't you see it in my eyes?
Wanna play in this game of disguise
It's a masquerade, a love parade
So won't you stay and dance with me?
All through the night and day
My masquerade, I need you, baby
So stay with me tonight
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
I gotta know the girl behind the mask
Let me in, where you've been? Don't pretend
Don't gotta hide alone
Show your face to me, we could be everything
It's a masquerade, a love parade
So won't you stay and dance with me?
All through the night and day

My masquerade, I need you, baby
So stay
It's a masquerade, a love parade
So won't you stay and dance with me?
All though the night and day
My masquerade, I need you, baby
So stay with me tonight
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
