

Masquerade

Backstreet Boys

Backstreet

Listen up

This seems so hypnotic, smoke and mirrors, lights and magic

Paper faces in gold

There's soldier boys, beauty queens, everyone's a mystery

It's got me losing control

Yearning, I'm yearning for the one to steal my eyes

Wanna play in this game of disguise

It's a masquerade, a love parade

So won't you stay and dance with me?

All through the night and day

My masquerade, I need you, baby

So stay with me tonight

Masquerade, masquerade

Masquerade, masquerade

Masquerade, masquerade

Masquerade, masquerade

Just like a perfect dream I don't ever wanna leave

A thousand freaks in the show

One's a tiger, one's a lynx, one's a king that suffering

Rolling high, moving low

Burning, I'm burning, can't you see it in my eyes?

Wanna play in this game of disguise

It's a masquerade, a love parade

So won't you stay and dance with me?

All through the night and day

My masquerade, I need you, baby

So stay with me tonight

Masquerade, masquerade

Masquerade, masquerade

Masquerade, masquerade

Masquerade, masquerade

I gotta know the girl behind the mask

Let me in, where you've been? Don't pretend

Don't gotta hide alone

Show your face to me, we could be everything

It's a masquerade, a love parade

So won't you stay and dance with me?

All through the night and day

My masquerade, I need you, baby
So stay
It's a masquerade, a love parade
So won't you stay and dance with me?
All though the night and day
My masquerade, I need you, baby
So stay with me tonight
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
Masquerade, masquerade
