

Five Man Army

Massive Attack

Trendy Wendy's you know what I mean
Hangin' around with girl who's rolling up her jeans
She watches her street crack 'cause she's no dummy
Through rocking the microphone and she's calling me honey
Says I know what I want don't move with thugs
Well house parties hip hop and smoking drugs
And whoever's been the boss she's down with 'em
She's always on time 'cause the girl got rhythm
To avoid a complication i'll give some information
About a certain occasion under an illustration
'Cause when I host my show-a I avoid the girl called lola
Who's more pu-pu-public than the drink they call it coca cola
I'm just practice posing face is shaded in black
Is dominating as my color the massive attack
Right now i hit it kick it flow smooth hit middle wicket I take a small step now it's a giant stride
People say I'm loud why should I hide
Only had a small taste so what a waste
I quietly observe though it's not my space
Bottom end's heavy you know we're never even
People call me Tricky for particular reason
I've got you see and I've got to let you know
See we're rockin' in your area rock beneath your balcony
My baby just cares for me well that's funny
Her touch tickles especially on my tummy Now who's got the microphone
Now who's honey A turbo turbo and charge with a charge
I be daddy g wild bunch crew at large
Don't call a officer just call me a sarge
Mashing up the country and also abroad
Plan to go to America when I get a visa card But gettin' a visa card nowadays isn't hard So keep your ears glued
listen to every chord
Tokyo city's one place that we toured
Four technique plus two mixer board
Sharper than a Wilkinson razor sword When I was a child I played subbuteo on
My table then I graduate to studio one
My nom de plume got my pseudo no
And around my neck you know I wear the sony budokan
Indigo blues you got me in my own shoes
The people dancing in the shape
For what they make they can't lose

Yes waxing lyrical but this time it's not satirical
It's kinda spherical so jam me in a
This is the miracle of the dubplate dub selection
So whether you're black white or half-caste in your
complexion
Yes pull out your phono plug and tuck you in your phony
It's started by Marconi resumed by Sony
A summary a while is a history and only
But massive attack enorme explosione
Get away with your guns now
We don't want it
Get away with your guns now
We don't like it
Eternal love eternal love
Money money money
Root of all evil
Money money money
Root of all evil
