Burned

Hilary Duff

What's wrong with me?
I get lonely in a crowd
Everyone is smiling
But I make myself left out
I've got an imaginary shield around me
But nobody's ever really gotten through
I keep thinking that they're gonna break me free
But they never do, no
When somebody's knocking, when somebody wants me
When somebody's trying to love me completely
I get scared, don't know how it works
Will somebody save me or will I get burned?
Don't wanna get burned
There's a thickness in the air
Weighing heavy on my heart
Why can't I just fit in?
Why can't I do what everyone else does?
People come around like a storm
When you least expect them to
For me I run for cover when I should
Really face the truth
When somebody's knocking, when somebody wants me

When somebody's trying to love me completely
I get scared, don't know how it works
Will somebody save me or will I get burned?
What's wrong with me?
I get lonely in a crowd
Everyone is smiling
But I make myself left out
When somebody's knocking, when somebody wants me
When somebody's trying to love me completely
I get scared, don't know how it works
Will somebody save me or will I get burned?
When somebody's knocking, when somebody wants me
When somebody's trying to love me completely
I get scared, don't know how it works
Will somebody save me or will I get burned?
I get scared, don't know how it works

Will somebody save me or will I get burned?
I get scared, don't know how it works
Will somebody save me or will I get burned?
I get scared, don't know how it works
Will somebody save me or will I get burned?
