I could be your satellite
I could give you MTV
You don't need a dish tonight
I get all these things for freeDownload this screen Saviour
When you're done saving, save yourself
Could stay online in your car
Chat line no matter where you areVirtual reality
Just not real enough for meJesus Christ is still alive
I'm waiting for Him to arrive
An interactive courier
Above all multimediaOptical holography
Have no faith in what you seeOpen up your window
How far are you prepared to go?
Could be more than just one drive
How many flavors have you tried?Go spirituality
No one here gets saved for free
It's not for youSomewhere inside of me
There's a promise of eternity, yeah
Somewhere inside of you
There's a spirit that you hide from viewYou don't need to understand, no
You just need to take His handSomewhere inside of me
There's a promise of eternity, yeah
Somewhere inside of you
There's a spirit that you hide, come oneI dare ya, I dare ya
I dare ya, I dare ya
I dare ya, I dare ya
