I'm Not Going Anywhere

Sonny Moore

There's a winter storm bearing down tonight in Oklahoma
The snow is really piling up outside
But I don't really care, I've got you by my side
I don't care I'm not going anywhere

The cold wind may be blowing and howling right outside
But there's a warm fire burning in our hearts
I don't have a care, I've got you here tonight
Let the snow pile up I'm not going anywhere

You're lying in my arms tonight, soft and warm
It really doesn't matter what's outside
Let the storm blow in, and I'll stay another night
Let the storm rage on I'm not going anywhere
Let the storm rage on I'm not going anywhere
