

# I'm Not Going Anywhere

**Sonny Moore**

There's a winter storm bearing down tonight in Oklahoma  
The snow is really piling up outside  
But I don't really care, I've got you by my side  
I don't care I'm not going anywhere

The cold wind may be blowing and howling right outside  
But there's a warm fire burning in our hearts  
I don't have a care, I've got you here tonight  
Let the snow pile up I'm not going anywhere

You're lying in my arms tonight, soft and warm  
It really doesn't matter what's outside  
Let the storm blow in, and I'll stay another night  
Let the storm rage on I'm not going anywhere  
Let the storm rage on I'm not going anywhere
