

I Love You More Than You'll Ever Know

Never Shout Never

Oh, I know that I am here and you are there
But we still have our love
We move just like the moon and sunThe sun comes up, the moon rolls down
A world apart but they don't make a sound
They know their love spins us roundI've been to heaven, I've been to hell
I've been to Vegas and god knows where
But nothing feels like home, like you, babe
I love you more than you will ever knowI've got my car and my guitar
A couple pills, a couple scars
But I made a wish on a lonesome starStar, oh star, you shine so bright
Won't you grab me one small wish tonight
That I won't die on this destructive path of mineI've been to heaven, I've been to hell
I've been to Vegas and god knows where
But nothing feels like home, like you, babe
I love you more than you will ever know
Than you will know
I love you more than you will ever know
