

The Sound Of You And I

Seabird

Not so long ago, I knew how to laugh
You taught me how to love and how to dance
When things went wrong, you always had a song
That always seemed to make things right It was the sound of you and I
The sound of you and I Maybe someday soon I'll become a man
Put off childish things and take your hand
With yours in mine, I think I'll be alright
I think I'll make it through the night When I hear the sound of you and I
The sound of you and I When you're away, you think it'd be okay
To sing this song just one more time I love the sound of you and I
The sound of you and I The sound of you and I
The sound of you and I
I love the sound of you and I
