Crazy Over You

Colin James

Lately I just don't sleep at night
Can't seem to get no rest
Always the same old story
And the same old testHoney please believe me
Believe when I say
There can never be a greater love for me
There can be no other wayBut now it's time to rest these weary eyes
I'm tired of all the stories and the lies
Cause there ain't nothing that I would not doCause I've gone crazy babe
I've gone crazy over youCrazy
Over you
Over you
CrazyJust keep it nice and simple
We'll make it easy as it can
Cause I want you to see I need you with me
You just got to understandBaby please believe
Believe when I say
There can never be a greater love for me
There can be no other wayBut now it's time to rest these weary eyes
I'm tired of all the stories, all the lies
Cause there ain't nothing, nothing that I, nothing that I would not do
