Revolution

Mercy Mercedes

so i say we'll catch this world on fire
we'll start a revolution
can't you see it now
it will take all everyone's attention
to leave it all behind us
can't you see it nowso we'll go undercover
set a sight together
make a path with only what we need to know
and we'll ride
we'll ride into the morning
and the sun will keep us clear from any ghosts in front of usit's alright to change cause everyone else stays the same
it's alright to change when everyone elseso come on
we'll set it off, set it off from the start
to the top, to the top where we are
they'll say we're only making enemies
whoa
we'll set it off, set it off from the start
to the top, to the top where we are
they'll say we're only making enemieshey can't you just see it
we'll be above it all when we change the world with each and every stone
and we'll build
we'll build it up together
now it's all in motion
we can't let go this perfect symmetryit's alright to change cause everyone else stays the same
it's alright to change when everyone elseso come on
