

# Raindrops

## Armor for Sleep

You appear like raindrops  
And live like you sink through  
The streets that you fall on  
The cars that slip on you All of this for just one night Suffocate me, all you need  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air The clouds will break my house  
And throw me from my room  
I'll drown in the rainfall  
And float till I find you You appear like raindrops  
And live like you sink through  
The streets that you fall on  
The cars that slip on you All of this for just one night Suffocate me, all you need  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air And I won't need air  
And I won't need air  
And I won't need air  
And I won't need air Suffocate me, all you need  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air Suffocate me, all you need  
I won't breathe but it's okay  
You'll be somewhere around me  
And I won't need air
