

Hole In My Head

Buddy Miller

Hole in my head, hole in my head
I need a girl like you like a hole in my head
I need a girl like you like hole in my head
Let's just say we will and then don't instead Wild goose chase, wild goose chase
You're gonna take me girl on a wild goose chase
Oh you're gonna take me girl on a wild goose chase
You'd better find somebody to take my place You took my imagination
And stomped it in the ground
Now I can only think about you
And take the tracks you left around Hole in my head, hole in my head
Oh I need a girl like you like a hole in my head
I need a girl like you like hole in my head
You make me feel so bad I wish I was dead It must have knocked me crazy
It must have hit me hard
People must think I'm lazy
Like my shuffle's short a playing card Wild goose chase, wild goose chase
Oh I need girl like you like wild goose chase
Yeah I need girl like you like wild goose chase
You'd better find somebody to take my place Let the games begin
Here I go again
I don't see how I'm gonna win
I need you girl like a hole in my head
