

Sad Foot Sign

Eels

Sad foot sign, why you gotta
Taunt me this way
The happy side is broken now
It's gonna be an awful day
And if I have to drive back by
To see from a different side
Would it be enough to say
The first time was a lie
Sad foot sign, the end is comin'
That's what they say
Maybe you could, see it in
Your heart for one day
To let me feel what it's about
To really be alive
To live and breathe
And see and feel, then I can die
