

Hallelujah

Vega 4

When the show is over
And all is said and done
The picture turns to static
Station has closed Hallelujah, Hallelujah
It was all worthwhile, oh love
Hallelujah, Hallelujah
I had the time of my life When the final scene has faded
On my starring role
I'll be thinking of you
The song will play on Hallelujah, Hallelujah
It was all worthwhile, oh love
Hallelujah, Hallelujah
I had the time of my life Hallelujah, Hallelujah
It was all worthwhile
Hallelujah, Hallelujah
I had the time of my life I can see the world from here
I can see the world
I can see the world from here
I can see the world
