

# Look At Me Now

Wess Morgan

Trying to put my past behind  
And yet some strive to find  
Trace of failure or defeat  
To destroy whats left of me

With my back against the wall  
Yet still trying to stand tall  
Seeking the will to try again  
This road just seems to have no end

But look at me now  
Destiny prevailed  
All weapons formed  
Completely failed

And though they said I never could  
You worked it for my good  
And after all that I've been through  
Your love has proven to be true

To those who said I'd never change  
My life will never be the same  
All of the tears I cried are gone  
You healed my family and led me home  
And now I owe it all to you

Just look at me now  
Destiny prevailed  
All weapons formed  
Completely failed

And though they said I never could  
Lord, you work it for my good  
After all that I've been through  
Your love has proven to be true

To those who said I'd never change  
My life will never be the same  
Never be the same  
I'll never be the same
