# Suck It Up

## The Dirge

You couldn't take me anyway
She laughed, I said, I bet you're wrong
Don't you underestimate my dirty mind
My dirty talk, my dirty thoughts
Can't you feel it in the way my body moves
You make me bad, you make me lose
Pretty lover, you're the only one for me
I swear to you, I'd die for you, inside of you
Up against me now, up against a wall
And you wear me down, and you hold on tight
And you lie to me, did you lie to me
So many reasons why you're just not right for me
I forget them all, well at least I try
Who am I kidding, you're my one and only vice
Just don't you see, don't, don't you see
That this is the end, 'cause I believe it's you and I
There is no, no other way
N-no, n-no, no, she said, don't you even speak it
Then you're going to say there will be no after
Not this time
But should I ever be lonely when night falls
And flooded with memories
She'll say suck it up, big boy
Then you're going to say there will be no after
Only photographs and time
Should I ever be flooded with memories
Or drunk on the moonlight
I swear that I'll be just fine
I see you think you're so clever now
I see you think you're so clever now
But watch you're mouth
I've got a mind to put you over my knee
Just because we're over doesn't mean that I'm free
Because I come right back to you
I beg and I plead right back to you
You're the end to me, don't pretend to be
Anything more than the distraction you're meant to be

Darling since we're here, let's not waste a breath

Wanna taste your lips, wanna trace your chest
Just don't you see, don't, don't you see
That this is the end, 'cause I believe it's you and I
There is no, no other way
N-no, n-no, no, she said, don't you even speak it
Then you're going to say there will be no after
Not this time
But should I ever be lonely when night falls
And flooded by memories
You'll say suck it up, big boy
Then you're going to say there will be no after
Only photographs and time
But should I ever be flooded with memories
And drunk on the moonlight
I promise I'll be just fine
Then you're going to say there will be no after
Not this time
But should I ever be lonely when night falls
And flooded by memories
You'll say suck it up, big boy
Then you're going to say there will be no after
Only photographs and time
But should I ever be flooded with memories
And drunk on the moonlight
I promise I'll be just fine
Like a picture in black and white
In black and white, in black and white
Take a picture in black and white
In black and white, in black and white
Take a picture, in black and white
In black and white, in black and white
Take a picture in black and white
In black and white, in black and white
Take a picture in black and white
In black and white, in black and white
