

Heavens

Pinetop Seven

I've been sitting on top of these rocks

Watching the waters rise

Everyone that I have loved has gone floating by

I've been praying for the king of the world to come rescue me

From a land that's lost in dreams

From a land that's lost in dreamsAre you waiting for the heavens

Are you waiting for the heavens to descend

Waiting for the depend, the depend, the depend

Are you waiting for the heavens

Are you waiting for the heavens to descend

Waiting for the depend, the depend, the dependI've been looking through microscopes to see how our life begins

I've been training my lens on the stars to see where it ends

But it's this living in between that's bringing me down

To a land that's lost in dreams

To a land that's lost in dreams

To a land that's lost in dreamsAre you waiting for the heavens

Are you waiting for the heavens to descend

Waiting for the depend, the depend, the depend

Are you waiting for the heavens

Are you waiting for the heavens to descend

Waiting for the depend, the depend, the depend
