

You've Got Me

Lucina

VERSE

Everyday when I hear it, everyday when I hear the rain pour

Everyday when I see it, everyday when I see you fall

Sometimes it feels like you are all alone

But as long as you've got me, you've got a place you can call home

CHORUS
You got me, you got me here by your side

You got me, you got me if you need to cry

Ohhhhh

Yeh you got me, you got me and you need to know

You got me, you got me wherever you go

Ohhhhhh

VERSE

Now and then in that moment, in the moment when you hit the floor (hit the floor)

Now and then when you're feeling, have the feeling that you need more (you need more)

Don't turn your back or run away or hide

(don't you run away)

Just keep holding on cos you have me by your side

CHORUS
You got me, you got me here by your side

You got me, you got me if you need to cry

Ohhhhh

Yeh you got me, you got me and you need to know

You got me, you got me wherever you go

OhhhhhhTake my hand I'll guide you side by side

It's you and me against the world and now it's time

To step into the unknown

Different people come and go through life

One thing that I know is I got you tonight

And I'm not letting go

(I'm not letting go)

CHORUS

You got me, you got me here by your side

You got me, you got me if you need to cry

Ohhhhh

Yeh you got me, you got me and you need to know

You got me, you got me wherever you go

Ohhhhhh
