

When the Water Falls

Collective Soul

Well she's a picture perfect child of innocence
I'm searching out in childlike ways for knowledge
Now she's questioning her mother
Yeah she's questioning her father
Yeah she's looking for the answers
To the problem that confronts her
Do you know where the sun goes when the water falls?
Do you know where the rain goes when the water falls?
Now I think her subjects could run far and wide
She has centered on the topic of the sky
Now she's questioning her mother
Yeah she's questioning her father
Yeah she's looking for the answers
To the problem that confront her
Do you know where the sun goes when the water falls?
Do you know where the rain goes when the water falls?
Do you know where the sun goes when the water falls?
Do you know where the sun goes when the water falls?
Do you know where the rain goes when the water falls?
When the water falls
When the water falls
