

Sadness Disease

Urban Cone

Talking to myself in your mirror
You're gonna lose me now
You're gonna lose me now
Think about yourself, think about sunday
She's gonna lose me now
She's gonna lose me now
I've got this sadness disease
How you gonna cure me?
Look at what you've done, it's so simple
I'm gonna lose you now
I'm gonna lose you now
We were so in love, now its sunday
You're gonna lose me now
You're gonna lose me now
I've got this sadness disease
How you gonna cure me?
I've got this sadness disease
How you gonna cure me?
