Come Forth

The Apex Theory

Questioning everything that we say Back and forth with the life we've made Don't listen when the other side speaks Leave me beLeft as though I can see through The mind-sided, it shivers with joy I have overcome you I have overcome youThanks for nothing I have waited Comfort is arriving now Thanks for nothing I have waitedComfort is arriving now Thanks for nothing I have waited Comfort is arrivingWhat a beautiful sight unseen Never felt the welcomed surprises Breathe new air and pull away Far from youIf you even apologize It's pointless if you ask me I am one with myself I am one with myselfThanks for nothing I have waited Comfort is arriving now Thanks for nothing I have waitedComfort is arriving now Thanks for nothing I have waited Comfort is arriving Thanks for nothing I have waited Comfort is arriving now Thanks for nothing I have waitedComfort is arriving now Thanks for nothing I have waited Comfort is arriving Thanks for nothing I have waited Comfort is arriving now
